This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Colonial Secretary's Office,
Cape Town, Cape of Good Hope,
23rd May, 1887.

PREFACE.

1. The brief official visit of instruction paid in 1884, by Mr. E. J. Pearson of the Board of Trade, London, has at length borne fruit fully: the STATISTICAL REGISTER for 1886, as it now appears, having been compiled on the general lines laid down by that gentleman, who is satisfied with the sample proof sheet submitted for his inspection.

2. The Colonial Secretary gladly records his appreciation of Mr. Pearson's valuable services in connection with the improvement of the statistical publications of the Colony, to which he applied—at a time when works of this nature were beginning to attract attention—a large experience gained in the Imperial Civil Service.

3. The range of statistical inquiry (to which Mr. Pearson's visit gave an undoubted stimulus) is gradually being extended. For the first time since the Census of 1875 was held, an estimate of the yield of crops of cereals has been published (see page 294) in respect to each Division of the Colony and the Transkeian Territories. An enumeration will next be made of Horses, Cattle, and Sheep, and when the finances permit of it, the important subject of the Registration of Births and Deaths—that of Marriages being already to a considerable extent provided for by law—will be dealt with.

4. To the authorities of numerous Public Bodies and Institutions, as well as to the private individuals, who have contributed facts which will be found embodied in the Tables published in this Book, the acknowledgments of the Government are due.

HAMPDEN WILLIS,
Under Colonial Secretary.

Colonial Secretary's Office,
Cape Town, Cape of Good Hope,
23rd May, 1887.

a Inclusive of Tembuland and Transkei.

Memo.—*On Acreage disposed of and undisposed of.*

s no general Survey of the Colony has been made, it is impossible to state exactly the area undisposed of. From the best calcula- hat have been made, however, the area of the Colony, including Griqualand East and West, Tembuland, and Transkei, is estimated 67,711 Morgen (134,966,920 Acres). The quantity of Land disposed of up to the end of 1886 being about 41,896,272 Morgen 5,141 Acres), there appear to remain undisposed of 21,871,439 Morgen (46,291,779 Acres), in which are included some Loan Places iconverted, Missionary Institutions, Native Reserves and Locations, Outspans, Commonages, and Crown Lands, leased under Act of 1864.

Note.—One Morgen=2·1165402 Acres.
